WORK EXPERIENCE

Konrad Group – konrad.com

May 2023 – Present

Senior Software Developer | Android

Toronto, ON

- Made key contributions to some of Konrad Group's largest projects, for clients including; a global credit bureau; Canada's largest grocery provider; a Canadian shopping center owner; and a popular American fitness brand.
 - Managed development of major features from ideation to successful completion.
 - Refined CI/CD and automated deployment processes.
 - Developed unit testing strategies that improved test coverage, runtime, and maintainability.
- Designed and led 10+ internal presentations with the aim of improving software architecture and code quality standards across the company.
- Played an active role in the candidate evaluation and selection process by conducting technical interviews.

Software Developer | Android

Sep. 2018 – May 2023

- Independently implemented features and patterns including; OAuth; SSO; 2FA; MVVM; CLEAN
- Consistently provided effective technical solutions and delivered robust final products.

General Motors

May 2018 – Sep. 2018

Production Supervisor

Oshawa, ON

- Managed a team of 25 employees on a pickup-truck production line.
- Exceeded standards for rate of production, employee safety, and product quality.

Network Engineering Intern

May 2017 – Aug. 2017

- Independently developed and tested a POC 'Robot and Conveyor Control' app for the factory touchpads.
- Debugged and solved network issues (hardware and software) between various computers, conveyors, robots, and cameras.
